

Product Overview

The Nessel Vessel Petite 2.0 is a freestanding, soundproof lactation pod thoughtfully designed to provide a private, serene, and fully functional wellness space across a wide range of environments.

Its small footprint allows it to integrate seamlessly into both new and existing spaces, making it an ideal solution wherever dedicated lactation or wellness space is needed.

Building on years of Nessel's experience and customer insight, the Vessel Petite 2.0 introduces enhanced functionality, refined materials, and an even more calming, restorative experience.

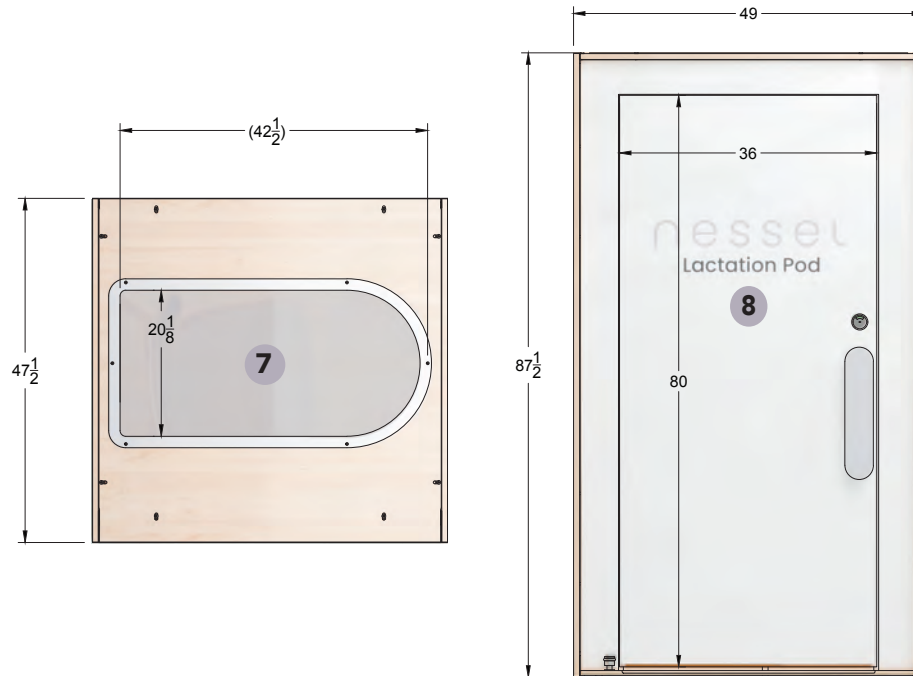

Every element — from its exterior presence to its interior lighting and built-in counter and desk — is designed to deliver a seamless, supportive environment that transforms compliance into meaningful care.

Feature Highlights

1. Interior lock & exterior occupancy indicator (smart lock option)
2. Gentle, dimmed LED lighting & dual privacy-reflection mirror
3. Built-in side counter with power hub, including (3) power outlets and (2) data ports
4. Built-in pull-out desk
5. Soundproof construction
6. Occupancy controlled ventilation system
7. Frosted polycarbonate skylight (see pp.2)
8. Exterior door signage (see pp.2)
